# 575 WORKMATE PRO Garaging Roof

The Surtees hull is renowned for its incredible smooth ride, the deep V and the genius water ballast idea from Neil Surtees, which makes the hull not just stable, but also has the option to lock in the water so when you get into the chop it will give the hull more weight and an even smoother ride in the rough.

The 575 can be fitted with fold-down roof enabling the boat to be stored in the garage. This cabin design offers great space, comfort and is very practical with the folding roof for easy storage. The perfect solution for owning a Hardtop if you have height restrictions.
