

540 **WORKMATE** **PRO**

The Surtees hull is renowned for its incredible smooth ride, the deep V and the genius water ballast idea from Neil Surtees, which makes the hull not just stable, but also has the option to lock in the water so when you get into the chop it will give the hull more weight and an even smoother ride in the rough.

The newly designed cabin offers incredible protection, a comfortable helm station with practical features as well as large glass windscreen, big front hatch and a practical roof - perfect for gear and rod storage.
